GENESIS Announces its Upcoming 2020 Calendar of Events

GENESIS provides the most comprehensive technical education in the industry, focusing on best practices and code compliance. GENESIS accredited by IACET, the International Association of Continuing Education and Training, is recognized internationally as a pinnacle of excellence in instructional practices.

Find Genesis University design, construction, and business schools at these upcoming events.

2020 Mid-America Pool, Spa, and Outdoor Living Show
Jan 13 - 16 | Lucas Oil Stadium; Indianapolis, IN
ENGINEERING 211: Basic Fluid Engineering provides a detailed foundation of hydraulic principals that enables the students to design better hydraulic systems.

2020 Southwest Pool & Spa Show
Jan 22 - 25 | George R. Brown Convention Center; Houston, TX
DESIGN 102: Sketching and Freehand Communication breaks down your inhibitions to draw in front of others and improve communication skills via loose freehand techniques.
CONSTRUCTION 242: Landscape Construction and Development identifies projects into multiple phases, categorizes areas of each project, and define how to develop a successful completion of the backyard environment effectively.
DESIGN 271: 20th Century Architectural Styles describes the key principles of various styles and how to coordinate a watershape design with architecture.

2020 The Pool & Spa Show
Jan 27 - 30 | Atlantic City Convention Center; Atlantic City, NJ
BUSINESS 432: Cost Estimating gives students the tools and experience to generate accurate and detailed estimates quickly.

2020 Southeast Pool & Spa Show
Feb 3 - 5 | Music City Center; Nashville, TN
DESIGN 211: Elements of Design introduces the fundamentals of good design by breaking down the essential elements into two categories: the Elements of Design and the Principles of Design.

2020 Everything Under the Sun Expo™
Feb 12 - 15 | Orange County Convention Center; Orlando, FL
CONSTRUCTION 281: Major Renovations guides students to design an interactive renovation project, considering everything from materials to liability concerns.

2020 Master Pools Guild
March 15 - 17 | Birmingham, AL
CONSTRUCTION 201: Basic Pool Construction focuses on one specific water vessel with students completing requirements in each section, including; soil, hydraulic, shotcrete, tile elements, and more.
DESIGN 204: Pool Studio breathes digital life into a student’s design while learning tricks and trades of the program.

Color Theory and Its Application
March 18 - 19 | Pentair Innovation Center; Apex, NC
**DESIGN 231: Color Theory and Its Application** introduces the basic dynamics of color, its principles, fundamentals, its psychology, and how to apply the science to project design.
